

3540 / Grey - yellow

Designed for the go everywhere, do anything rider. The OFF TRACK makes no compromises when it comes to safety, style and functionality. This four-season jacket features the REV'IT! 3-layer system, which incorporates a removable 3-layer breathable and waterproof membrane as well as a detachable thermal liner. The OFF TRACK features multiple direct ventilation points, including fully removable side panels, as well as chest and arm vents. This jacket is outfitted with CE approved ProLife® armour and temperfoam back padding that can be replaced with hard armour at an additional cost. Included in this jacket is a variety of pockets, with two of them waterproof as well as a number of reflective panels to ensure maximum visibility. The OFF TRACK jacket forms a recommended combination with the DAKAR pants.

The **DAKAR** pants form a recommended combination with the **OFF TRACK** jacket to obtain the best top-to-toe all-weather protection. It features the same technology, which includes a detachable thermal lining and detachable 3-layer membrane. The easy to reach pockets on the upper leg are waterproof and laminated with reflective panels to enhance the visibility of these pants. Two ventilation zippers on the upper leg allow wind to cool the legs during riding. The use of ProLife® CE approved knee armour and Temperfoam hip padding ensures the protection level of these pants. The **DAKAR** contains leather panels on the inside of the legs for more grip.
