

HANDGUARDS

> RALLY PRO

TECHNICAL CHARACTERISTICS

The original Rally Pro handguards are equipped with an aluminum bar for the strongest protection available.

- Aluminum guard for maximum strength
- Nylon composite material injection molded in and around the aluminum guard for increased protection
- Indexed steel bar-end insert mounts solid and will not allow guard to rotate in a crash
- Comes equipped with mounting kit to fit 7/8 steel and 7/8 aluminum handlebars
- Mounts to the handlebar by cutting off end of each grip and the throttle tube to install bar inserts
- Plenty of room for cables and brake lines
- Optional spoilers and mounting kits for oversized handlebars are sold separately
- Also fits most ATV's with specific mounting kit

SWIVEL JOINT (SEE NEXT PAGE)

An aluminum mounting kit for racing, compatible with Rally Pro, Rally II, Rally Mini Cross, Multiconcept Supermoto, Multiplio handguards. An additional new hinge adds an innovative feature to the Acerbis kit that allows adjustment in three directions. With the screw removed, you can simply rotate the handguards while leaving the expander on the handlebar. In this manner there is sufficient space to work without having to remove them completely. Adaptable to all handlebars, including conical bars.

OPTIONAL SWIVEL JOINT
